FOUR HUNDRED DOLLARS REWARD!-Daring Burglary—Safe Blown Open with Gunpowder!— On Saturday night last, Chapman's Watch and Jewelry Shop was entered—safe blown open with gunpowder, and watches and jewelry taken amounting to between eight hundred and a thous and dollars.

There seems to be no doubt in the mind of he public here, but that the burglary was comitted by three scamps that were seen prowling about the town on Friday and Saturday. On Friday night Shertzer's grocery was entered, and some few things taken; among the rest, the money drawer, which has since been tound under Peter Dorn's cabinet shop; together with bank book, lottery tickets, and other papers. There seems to be no doubt but that the same villains intered Chapman's shop on the same night, for

the purpose of prospecting. One of the three persons has been arrested. The other two in company with him at the time, made their escape. The one is of medium size, lark complexion, very badly pock-marked, wi a thin spare nose so much so as to be somewhat distigured—had on a blue sack coat, black ossuth hat with stiff rim, and light pautaloons, The other was marked with a sear over his left eye, extending from the eye-brow to the cheek bone. Dress not remembered. The last of the bove described purchased, on Saturday evening, f Homer Smith, a quarter of a pound of gunbowder: also purchased about the same amount of powder at F. M. McConnell's store. On londay evening one arrest was made at Beiloontaine-the two accomplices above described, succeeded in making their escape. ustice. It is claimed that Pulvermacher's Electric Chain the only magnetic remedical agent that is secured by a patentigranted by this government, on the ground that it was a strictly useful and scountific article. The Chains are now on exhibition at the Crystal P. lace and attract much attention from the thousands who daily visit it.

now on exhibition at the Crystal P. lace and attract much attention from the thousands who daily visit it.

MODE OF USE.

The manner of using the Chains is very simple. The chain is first maistened with common vinegar, and then one end of the chain is applied to the part where the pain is located, and the other end opposite to the first. The ends of the chain should never touch each other. At the moment of application, the most acute pain is instantly relieved, wherever it is located, by the passing through the part a constant current of uninterrupted electro magnetism. In the following discusses, no other remedy his ever given such complete and perfect satisfaction to the patient as Pulvermacher's Electric Chains: Rhe unsatism, Painfur and swelled Joints Pains in the Buck, Dealness, Buildness, Franlysis, Neuragia in the face, Long standing Nervous Headache. Palpitation of the Heart, General Debility, Dyspepsia. Female Discases, Asthma, Contracted Joints, &c.

1.000 DOLLARS

will be given to any person who will poduce so many well anthe nticated certificates of cure from intelligent patients and scientific physicians of the above discusses as has been serformed by the use of the Electric Chain during the past year.
